

CHERUBINI YACHTS
Classic Beauty. Heavenly Performance.

WELCOME TO CHERUBINI YACHTS

Classic Beauty. Heavenly Performance.

Imagine the graceful lines of a traditional sailing vessel or the nostalgia of a vintage runabout. Couple that with all the aeronautical precision of high-tech materials and modern day technology. Add master craftsmanship with a dash of angelic charm. Then you have a Cherubini yacht – that rare combination of head-turning beauty and powerful performance. Pure heaven on water.

CHERUBINI YACHTS
Classic Beauty. Heavenly Performance.

THE LEGACY

In the grand tradition of yachting, few boats stand out as being truly timeless & spectacular. Such have been the classic designs built by the Cherubini family since 1975. Universally recognized for their beauty and technological excellence, Cherubini Yachts now offer five exquisite models: two sailboats and three powerboats. All are lovingly hand crafted on the shores of the Delaware River by 3rd and 4th generation Cherubini family members, as they have been for close to eight decades.

Honoring the past and the present, combined with engineering excellence and unparalleled craftsmanship, is what makes a

Cherubini unique. Our precision made, solid hand laid crafts are built for generations of enjoyment. Whether it's winning offshore long distance sailboat races, or enjoying the thrill of our high speed classic runabout, our boats will take you where you want to go. That is why Cherubini yachts are noted the world over for being as fast and comfortable as they are beautiful.

Dave Cherubini, president of Cherubini Yachts, says it best: "Passion for excellence is in our DNA. With each boat, we challenge ourselves to achieve the highest standards so her new family will cherish and love her for years to come."

You will love working directly with our craftsmen to develop your family heirloom. Be it one of our traditional sailing vessels or classic motorcraft, rest assured Cherubini Yachts will build the boat of your dreams.

Classic Beauty. Heavenly Performance.

THE POWERBOATS

There's something about the sexy contours of a vintage runabout that makes your heart beat a little faster. The varnished mahogany dazzles; the promise of excitement beckons.

Above the waterline, you see all the handsome styling from the 1930's – a real head-turner. Below the sparkling skin, the modern fiberglass hull and high performance engine give you a smooth, dry ride with complete control.

As you accelerate powerfully, leaving other boats in your wake, the Cherubini cuts through the chop with ease, thrilling your passengers. This isn't a dream. Meet the Cherubini Classic Runabouts and 255 Sports Cruiser.

We knew we could marry the beauty of the past with the advanced technology of the present for an unparalleled boating experience. Built with love, our timeless designs are the result of four generations of experience and spectacular Cherubini craftsmanship. Choose from three different models with countless options. Since every boat is built to order, we'll outfit your boat exactly how you want it.

- The Cherubini Classic Runabouts – enjoy these jewels in 20 or 24 feet.
- The 255 Sports Cruiser – a covered runabout with all the amenities of a cabin cruiser in 25.5 feet.

“Like driving a PORSCHE with a Rolls Royce suspension.”

CHERUBINI YACHTS
Classic Beauty. Heavenly Performance.

THE SAILBOATS

Traditional, elegant designs of a bygone era inspired these yachts, known all over the world for their *classic beauty and heavenly performance*.

The Cherubini 44 was developed for ease of handling, comfort and seaworthiness. Her sweeping sheer, low freeboard and raked spars make a grand entrance everywhere she goes. The Cherubini 48 incorporates the aesthetically pleasing and seaworthy aspects of a schooner rig.

When John and Frit Cherubini started the company back in 1975, they integrated the best of modern hull design and construction technology into those timeless designs. The result? Today a Cherubini is considered one of the world's finest sailing vessels.

Lovely to look at, Cherubini sailboats are beautifully built by expert craftsmen and are luxuriously appointed to provide a gracious floating home. Whether you are crossing the Atlantic or cruising in the Chesapeake, a Cherubini has a well-deserved reputation for being fast, comfortable and easy to handle, even by just two people.

So many thoughtful features put a Cherubini in a class by herself. For example, the patented Scheel® Keel provides a shallow 4'10" draft with deep keel performance and the cruising flexibility of a shoal draft boat. And that's below the waterline. Wait until you see the topside and her interior! Please visit our website to fully appreciate what goes into these remarkable yachts.
